Dear Sir/Madam, I hope you are well. I am writing regarding my company registration application (Application Number: **PVT-YQ195JQY**, Company Name: **Jiranisoko Market**). I recently received a notification requesting that I upload "system-generated documents". I would kindly like to seek clarification on the following: 1. Which specific documents are required (e.g., CR1, CR2, CR8)? 2. Whether the documents need to be signed before uploading 3. If there are any specific formatting or submission requirements I should follow I want to ensure that I submit the correct documents to avoid any further delays in processing my application.
